

UTILITY FLY CAGE MK2

Co-Created with Lineworkers for Lineworkers

DURABILITY

Engineered for the task and tested by lineworkers onsite, all our products can take the abuse of the most demanding projects. Fabricated by Certified Welders.

SAFETY

Air safety is critical and secure containment of materials will minimize incidents. Utility Company Approved.

ECONOMICAL

Proper organization of inventory reduces material costs. Ergonomic design reduces workers compensation costs.

VERSATILITY & FLEXIBILITY

Custom configuration is easy. Shepherd Hooks extend to allow landing gear where you need it. Quickly rotate them upright and use them as material racks. Strategically placed D-Rings allow easy rigging.

EFFICIENCY/ ERGONOMICS

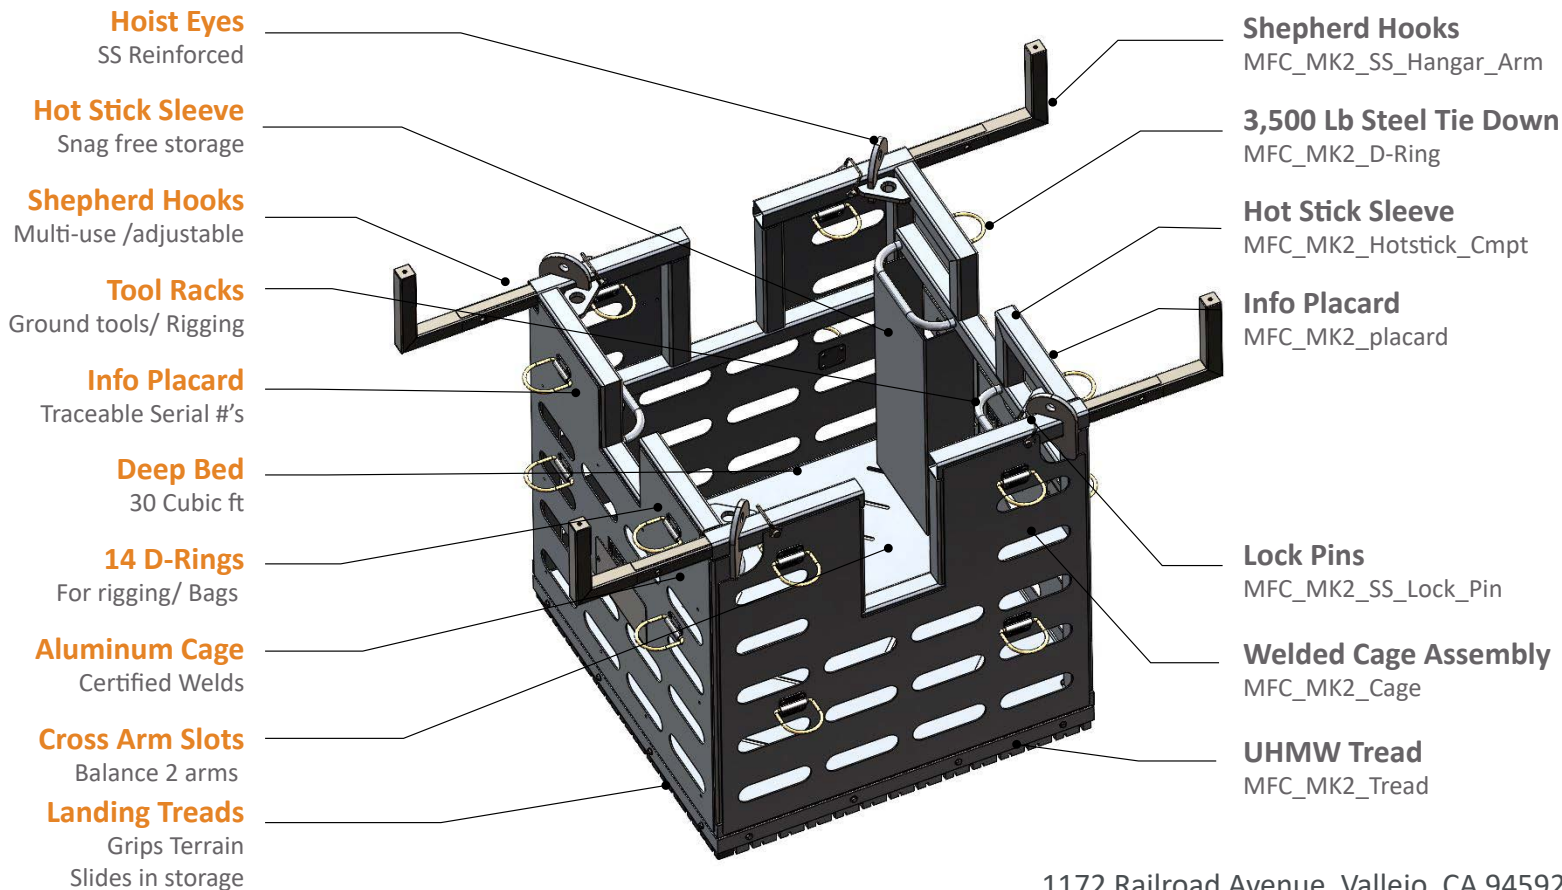

Expedite projects by organizing components within easy grasp and reduce the time to mount or retrieve materials. No more straining to reach buried tools. No more lost time replacing or searching for inventory.

THE META ADVANTAGE

Everything needed for optimal, security, safety, & efficiency

USER CENTERED DESIGN

When you combine the **experience** and **knowledge** of 30 year Journeymen with **disciplined industrial designers** and utilize the **latest technologies** in machining and fabrication, you get remarkable products that literally **save lives** while improving them.

The Fly Cage is a culmination of everything we've learned and tested on site and in the air.

- Minimize rotation by mounting cross arms centered and perpendicular to each other.
- Quickly store ground tools and shotguns in neat racks with minimal rigging.
- Replaceable UHMW treads allow landing with confidence on rough hillsides and gravel lots without slipping or damage to the crate, while allowing easy sliding along a smooth warehouse surface.
- one piece seamless stainless steel bushing inserts at all four aluminum hoist points give greater lifting longevity.

WEIGHT: **178 Lbs**
WORKING LOAD LIMIT: **2,000 Lbs**
HANGAR ARM LOAD LIMIT: **250 Lbs**
HANGAR ARM EXTENSION: **12"**
ARM MATERIAL: **Stainless Steel**
DIMENSIONS: **36" X 36" X 40"**
CAGE MATERIAL: **Aluminum**
