

## UTILITY FLY CAGE MK2

Co-Created with Lineworkers for Lineworkers

### DURABILITY

**Engineered for the task** and tested by lineworkers onsite, all our products can take the abuse of the most demanding projects. Fabricated by Certified Welders.

### VERSATILITY & FLEXIBILITY

**Custom configuration** is easy. Shepherd Hooks extend to allow landing gear where you need it. Quickly rotate them upright and use them as material racks. Strategically placed D-Rings allow easy rigging.

### SAFETY

**Air safety** is paramount and secure containment of materials is critical. Utility Company Approved.

### EFFICIENCY/ ERGONOMICS

**Expedite projects** by organizing components within easy grasp and reduce the time to mount or retrieve materials. Have what you need at the ready when you need it.

### ECONOMICAL

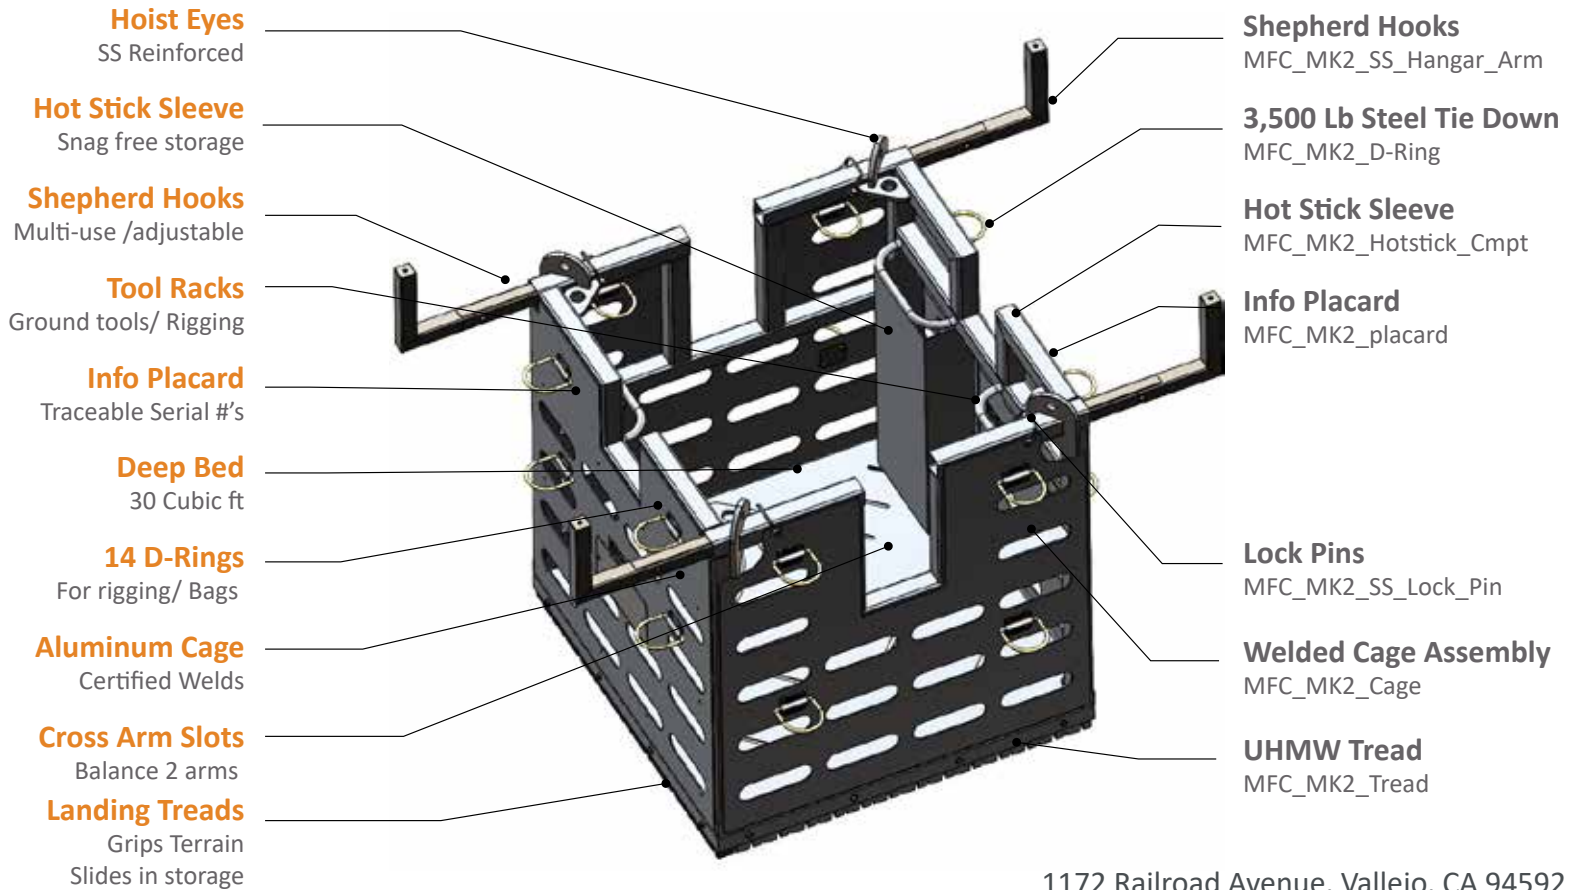

**Proper organization** of inventory reduces material costs. Ergonomic designs improve efficiency throughout your projects.

# THE META ADVANTAGE

Everything needed for optimal, security, safety, & efficiency

## USER CENTERED DESIGN

When you combine the **experience** and **knowledge** of 30 year Journeymen with **disciplined industrial designers** and utilize the **latest technologies** in machining and fabrication, you get remarkable products that make challenging tasks easier.

The Fly Cage is a culmination of everything we've learned and tested on site and in the air.

- Minimize rotation by mounting cross arms centered, balanced, and perpendicular to each other.
- Quickly store ground tools and shotguns in neat racks with minimal rigging.
- Replaceable UHMW treads allow landing with confidence on rough hillsides and gravel lots without slipping or damage to the crate. The same hard rubber allows easy sliding and maneuverability on warehouse surfaces.
- One piece seamless stainless steel bushing inserts at all four aluminum hoist points give greater lifting longevity.

WEIGHT: **180 Lbs**  
WORKING LOAD LIMIT: **2,000 Lbs**  
SHEPHERD HOOK LOAD LIMIT: **250 Lbs**  
SHEPHERD HOOK EXTENSION: **12"**  
ARM MATERIAL: **Stainless Steel**  
DIMENSIONS: **36" X 36" X 40"**  
CAGE MATERIAL: **Aluminum**
