

THE META ADVANTAGE

Co-Created with Lineworkers for Lineworkers

VERSATILITY & FLEXIBILITY

Custom configuration made easy. We know every job is different and adjustability is essential, so we design the most configurable products to meet your needs.

DURABILITY

Engineered for the task and tested by lineworkers onsite, all our products can take the abuse of the most demanding projects. We manufacture our own machined billet components and utilize a talented fabrication team of Certified Welders.

EFFICIENCY/ ERGONOMICS

Expedite projects by quickly adjusting to dimensions to your needs. We carefully consider the end user in all of our product details, utilizing the latest interactive ergonomics and human factors.

SAFETY

Personnel safety is critical and we demand stringent product testing to ensure line worker security to minimize incidents. We are a Utility Company Approved vendor.

METADESIGNMFG.COM

MADE IN

BAKER BOARD BRACKETS

Machined Billet Aluminum

1 Baker Board Mount

Machined from one solid piece of Billet, Offsets create compatability fpr both Chance and Hastings board designs while maintaining critical thickness for structural integrity and loaded with functional features

5 Leg Mount

Accommodates both the Chance and Hastings foot designs. Offset keeps steel foot away from marring the pole.

4 Rubber foot pads

Grips steel towers while minimizing gauging of surface.

2 Hook Stays

Generaous tolerance for rapid hook attachment. Inverted position maximizes security. Tested for 2,000 Lbs of torque.

3 Ratchet Straps

Dual ratchet straps for redundant safety. 5,000 Lb rated straps ensure absolute security.

WORKING LOAD LIMIT:

2,000 Lbs [TESTED BY 3RD PARTY]

Total Weight:

Top Bracket 6lbs
Bottom Bracket 4lbs
