

FIRE SUPPRESSION UTILITY TRAILER

Co-Created with Utility workers for Utility workers

VERSATILITY & FLEXIBILITY

Combination Trailer for much more than just hauling water. Civil Crews and Line Crews can benefit from the racks, material tray, storage bins and even carry an occasional power pole when a pole trailer is too big or unavailable.

COMPLIANCE

Sealable Fire Suppression Tools

Don't bring yet another truck or trailer to satisfy PRC S 4427, 4428, or 4430 when our H2O Combo trailer offers 48 Cu Ft of Secure & Sealable storage for a complete set of compliant tools.

METADESIGNMFG.COM

DURABILITY

Engineered for the task and tested by utility workers onsite, all our products can take the abuse of the most demanding projects.

SAFETY

Road safety is why we designed this trailer with a lower center of gravity and self-baffling tanks to significantly improve handling.

ECONOMICAL

Efficiency & organization of inventory reduces material costs while saving a trip reduces personnel, fuel & time.

MADE IN

STOCK FEATURES

Material Tray

80' 1,000Lb cap

Pole Racks

800 lb support

390 Gal Tanks

Self Baffling

Lower CG

Step Bumpers

Diamond plate grip

ROAD WETTER

1" dia dual spray valves for dust control.

OPTIONAL FEATURES

Shade Awning

Easy Mount

Potable Water

10 Gal Jug Support

200' Hose 1" Dia.

Fully Charged

Rapid Reel

2" Water Pump

164 GPM

Fire Suppression Tools

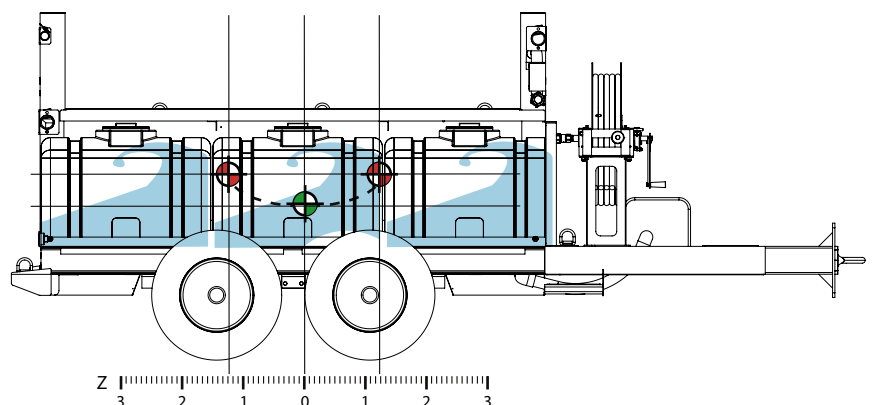

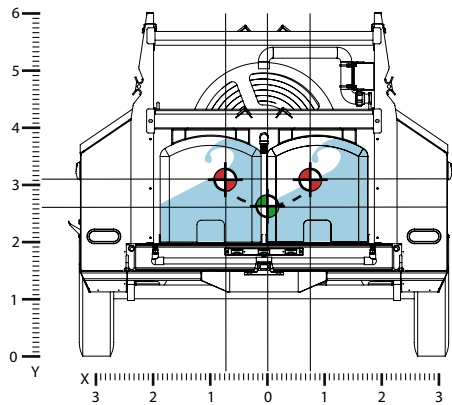

48 Cu Ft of Secure Storage/

Sealable bins for

PRC 4428 Compliant tools

Tire Chocks

14K Lb Rated

ENGINEERED FOR SAFETY

Designed for Efficiency

LOWER CENTER OF GRAVITY, SELF BAFFLING, AND USABILITY

The industry standard water trailer is a disaster on wheels. They use a single, large container that allows **dangerous surging** while only serving the purpose of partial fire suppression compliance.

META's goal is to **save lives** while improving them. Our water trailer utilizes **multiple containers** to **reduce surge** during braking & acceleration, and lowers the Center of Gravity (CG) to **eliminate rollover** through turns. Our frame is carefully engineered for a lower water containment position with six water containers that are **self-baffling**, significantly improving driving performance.

We also use two 6k Lb capacity axles to accommodate significant storage & material handling, creating a **multi-functional trailer** that saves you time and money. PRC 4428 compliance mandates a complete set of fire suppression tools on-site. Why not consolidate everything you need to one trailer?

WATER CAPACITY **390 GAL**

GVWR **9,999 Lbs**

UNLADEN WEIGHT **3,250 Lbs**

WEIGHT W 390 GAL **6,500 Lbs**

TIRES **Goodride 16" 10 ply Radial TWA**

SIZE **235/80/16**

WHEELS **16X6 8 Lug**

TIRE PRESSURE **110 PSI**

AXLES **Dexter Tandem Axle 12,000 Lbs Cap**

BRAKES **Electric 8 X 6.5 1/2(85/70)**

SPRINGS **6 Leaf Heavy Duty Slipper**

LENGTH **24'**

TOTAL WIDTH **80"**

BED DIMENSIONS **4'W X 9'L X 4"D**

CONNECTOR **Heavy Duty, 7-Pole, Round Pin**

HITCH **42,000 Lb Drawbar Ring**

SAFETY **Class 4 Safety Chain, Breakaway Kit**
